

Riddim Posse

Reggae – Soca – Calypso Caribbean Party Live

Their passion for reggae and soca music has brought these musicians from five different nations together. Entirely devoted to Caribbean music, the band has developed its individual style and is unique in Europe with its distinctive sound.

Music, that goes straight to the stomach and the toes. Heavy grooves, a burning hornsection, lead singer Wayne Dallaway's unique voice, Kirt Dallaway's exceptional trumpet playing, steeldrums and harmony vocals create this attractive mixture. Their joy of playing this music, their passionate performances full of energy are the secret of their popularity and the reason why Riddim Posse has existed for many years.

Their first single DOCTOR SOCA brought them a great deal of international attention. Further singles and two albums as well as over 800 gigs in Germany and many other countries like France, Switzerland, Italy and Turkey followed. The musicians played together on stage with The Wailers, Manu Dibango, Kool & The Gang, Xavier Naidoo, Jahcoustix and others.
